SUMMARY

8+ years of commercial Unity C# experience. Daily work covers DI (StrangelOC, Zenject, VContainer), ECS (DOTS, Entitas), MVX architecture, UniTask, and client-server (REST API, WebSockets).

4+ years as a Unity Team Lead, managing teams of up to 6 developers. Building project architecture from scratch, refactoring legacy code, and optimising processes. Getting my second Master's degree as an AI/ML Engineer at Woolf Neoversity. Actively optimising my workflow with the latest AI tools (Cursor, Codex, Claude Code).
